

Multi-Purpose GEL for Pets!

durafresh™ 

Multi-Purpose **PET GEL**

ZINNELLÉ

**ANTI-MICROBIAL
PROTECTION
w/ ALOE VERA**

YES! Durafresh has a Pet Care line. Everyday, our pets are exposed and invaded by millions of bacteria and other microbes that cause infection and disease. More than 85% of dogs and cats over four years old suffer from some form of disease including oral diseases in which odor-causing anaerobic bacteria is the primary cause. Our competitors have always relied on cleaning with abrasive & toxic ingredients, & deodorizing with fragrances that merely mask odor. DURAFRESH products utilize stabilized chlorine dioxide (ClO₂) to effectively aid in disinfecting affected areas through an oxidation process, leaving your pet healthy, clean and pure. DURAFRESH, redefining pet care by safely harnessing the NATURAL cleansing power of OXYGEN!

Order Online via www.Durafresh.us

"Contains only NATURAL ingredients"

Also available: DURAFRESH Pet Breath Spray
