LONG-LASTING DEODORANT

ALL-NATURAL
GENTLE PROTECTION
w/ Aloe Vera and
Stabilized
Chlorine Dioxide

For highly effective odor control, use Durafresh Deodorant. This revolutionary cream will keep odors at bay, will not stain, and will keep you dryer, longer even in hot weather. This natural pH-balanced deodorant is formulated to gently give you maximum long-lasting protection against underarm odor without irritating the flesh. Other products in the market today tend to block pores, which can lead to complications, some as severe as cancer. In fact, Durafresh Deodorant can be used externally anywhere odor is an issue. Simply spread over the intended area for long lasting results. One added benefit is the naturally occurring lightening of the skin wherever the cream is applied. This unique formula uses Durafresh technology, which rivals other deodorants in effectivity and strength. It's active All-Natural, non-toxic and safe antibacterial ingredient, Stabilized Chlorine Dioxide (ClO₂), efficiently aids in destroying odor-causing compounds. This product will definitely be a part of your daily regimen; you'll never start your day without it! Available in a 2 fl.oz. (60 ml) bottle. **Ingredients:** Deionized Water, Zirconium Chloride, Cetyl Alcohol (emulsifier/moisturizer), PEG-40 stearate (emulsifier), Propylene Glycol, Ginseng Extract, Stabilized Chlorine Dioxide (ClO₂), Aloe Vera, Germaben II.

Also Available: Oral Rinse, Toothpaste, Breath Spray, Muftipurpose Gel & Hand Sanitizer
